London, Oct. 11 .- A dispatch from Paris to the Exchange Telegraph Company says that the Peace Commissioners are at complete variance on the Philippine question and have referred the matter totheir respective governments.

A dispatch from Madrid quotes the Correspondencia, a semi-official organ, as saving that the peace negotiations are not progressing as satisfactorily as could be desired. The cabinet council which was held yesterday was mainly occu; ied with the consideration of the American demands in regard to the Philippines.

The tenor of the new instructions to the Spanish Commissioners in Paris was also agreed upon.

A dispatch to the Central News from Madrid says that the cabinet at its meeting yesterday discussed the annual estimates. It is reported that as the resuit of the discussion the cabinet decided to allot considerably increased sums for war material and strengthening the garrisons of the Canary and Balcaric detande

For the past two days there have been rumors to the effect that there has been a spirit of something approaching bitter dissension in the meetings of the Commisgioners, and the prediction that some of the Americans have indulged in of an early and favorable end to the negotiations does not seem to be on the way to verification, judging from the little that has eked out concerning the discussions.

San Juan, Porto Rico, Oct. II.-In answer to a request from the American Commission, the Washington authorities have wired instructions to the Commis ploners to notify the Spanish authorities that the American flag will be raised over the island on October 18.

In accordance with these instruction the Spanish Commission was formally notified today that on the day named the Americans will take full charge. This knowledge relieves the strained relations between the Spanisrds and the Americans, the uncertainty beretofore existing having had a very disquisting effect. American occupation is the only thing needed to insure peace throughout the island.

ALONG A FOUR-MILE ROUTE

Fine and Bracing Weather Favors the Display-Commanderies Embracing Twenty Thousand Men in Fourteen Grand Divisions March From Early Morn Till Afternoon.

Pittsburg, Pa., Oct. 11.-With a fourmile route lined with artistically arranged Knight Templar emblems, and the Stars and Stripes, floating from every building, the great parade of the twentyseventh triennial conclave of Knights Templar surpassed all marching demonstrations ever seen in this city. With nothing commonplace, but much that reached a degree of splendor, it was like ne magnificent panorama, with all the settings to make it complete.

At an early hour the tide of travel started toward Allegheny, the starting place of the parade, the commanderies passing to their places of formation with out confusion or delay. It was different however, with the vast multitude of sightseers. They made a mighty rush to the points of vantage, but owing to the efficiency of acurate prearrangement little annoyance occurred.

Gen. Goldn, grand marshal, appeared early at his headquarters in the Allegheny City Carnegie Library and by a system of telephones he was able to give such orders as to bring each division to its proper place promptly and without confusion. There were fourteen grand divisions, with a grand total of 20,000 sir knights in the line of parade.

The second session of the Board of Missions, consisting of the House of Deputies and the House of Bishops of the Triennial Episcopal Convention, in joint a ssion, occupied the greater part of the morning session at the Church of the Etiphany today, only the first hour being devoted to routine business by both houses. The meeting was called to order at 11 o'clock by Bishop Whipple, of Min-

extended to the Woman's Auxiliary. During the hour devoted to routine business a resolution urging the selection of San Francisco as the city in which the triennial convention of the church in 1901 to be held was offered by the deputy from California and referred to a joint

ommittee. A great many members of the woman's auxiliary to the board were present, fill-ing the galleries and back part of the of the church. The bishops sat with the deputies from their respective dio-ceses, and a number of interesting re-marks on mission work in various parts

Germans Decide to Supont the Democratic Ticket

New York, Oct. The document will contain over 5,000 words, in which Justice Van Wyck will deal with every phase of Republican maladministration in the State.

The major part of the letter will be devoted to a discussion of the \$9,000,000 canal scandal and its effect on the taxpayers of the State. The Raines law will come in for scathing criticism.

Men with whom Justice Van Wyck has discussed the letter of aceptance say that it is couched in very strong language for a document of this character. He has not been satisfied with a mere formal discus-sion of the issues of the campaign, but denounces the men who are responsible
